## High school "A. Pieralli"

The complex is located within the urban agglomeration of the historic center of Perugia. The school structure is developed in proximity and partly in is linked with the vertical structures of the Church of Santo Spirito. The building object of intervention is currently base of to the Institute Magistrale "A. Pieralli". The complex was declared in ruins in 2018 as a result of the seismic events that occurred in the 2016, the intervention is framed as a seismic improvement aimed at achieving the highest possible degree of safety, compatible with the needs of protection of the property and with the available resources.
