New Hospital of Cesena

The New Hospital of Cesena is a healthcare structure with a high intensity of care, technologically advanced with the presence of areas with high functional specialization, designed on criteria of energy and environmental sustainability. In the New Hospital 433 beds will be located and there will be over 60 different departments divided into 11 Macro-areas (Treatment Area, Emergency/Urgency, Diagnostics and Therapy, Outpatients, Ordinary, Maternal and Infant Care, Laboratory Area, Management Area, General Services, Teaching and Logistics). The New Hospital of Cesena aims to obtain the Gold Certification of the LEED Rating System.
