EHS management

Soccer stadium Dacia Arena

The project is part of a program of general redevelopment of the Friuli Stadium, aimed at the functional improvement of the entire sports complex in terms of both supporting soccer in general and promoting an intervention for the city of Udine at the service of citizenship. The goal of the contracting station Udinese Calcio S.P.A. is to redevelop the old sports facility called "Stadio Friuli", transforming it into a new stadium for soccer, a modern structure and corresponding to all the latest UEFA and FIGC directives, thus enhancing the entire municipal territory.
